

SFWRENG 3DB3: Databases

Fall 2021

1 DB2 Information and Resources

We will be using IBM DB2 under the Linux operating system. You can access the course database instance (SFWRENG 3DB3) by logging into (via SSH) the CAS department server `db2srv3.mcmaster.ca`. You can use your same login as you would for other CAS department servers. If you are off-campus, you will have to use the McMaster VPN or ssh to a public department server first (e.g., `mills.mcmaster.ca` or `moore.mcmaster.ca`) and then ssh to one of the DB2 servers. If you do not have a login to access the CAS department servers, please contact the TAs who will coordinate with our system admin to get you acce
